Xerofire® HP Clear – the second generation Xerofire® HP Clear Fire-Retardant wood finishing system, requiring only a single coat of isolator, basecoat and topcoat.

This High-Performance system gives exceptional clarity, furniture-grade finish and class-leading fire-retardancy with greatly reduced application time.

Xerofire® HP Fire-Retardant clear system is suitable for use with most solid timbers, veneers, MDF and composite boards, giving architects, specifiers and designers a wide range of substrate options.

Xerofire® HP Clear – now available through Handley Industries, manufacturers and distributors to the timber coatings and flooring industry.
